## INSL – Current Approaches to Inner Speech and Inner Language Scientific Program

**July 1**

9:30 – 16:30 CET

---

09:15: Zoom Room open for chatting

09:30 – 10:00

**Welcome**

*Jutta Mueller*

10:00 – 10:45

**Is there evidence for motor inhibition during inner speech?**

*Sharon Geva (University College London)*

---

10:45 – 11:00

**Coffee Break**

---

11:00 – 11:45

**Dissecting the cognitive neural mechanisms of speech imagery**

*Xing Tian (NYU Shanghai)*

11:45 – 12:30

**From amodal inner language to auditory verbal hallucination:**

**Extreme forms of endophasia framed within a neurocognitive model of condensation,  
dialogality and intentionality**

*Hélène Loevenbruck (CNRS – Université-Grenoble-Alpes)*

---

12:30 – 13:45

**Lunch Break**

---

13:45 – 14:45

**Short-Talk-Session**

13:45 – 14:05

**Decoding elicited and self-generated inner speech**

*Oiwi Parker Jones & Natalie L. Voets (University of Oxford)*

14:05 – 14:25

**Finding your voice. The role of inner speech in enacting autobiographical narratives.**

*Francesco Fanti Rovetta (University of Osnabrück)*

14:25 – 14:45

**Silent repetition as a window into inner speech processing in the brain**

*Simone Gastaldon, Stefano Bellelli, Francesco Vespignani & Roberto Zamparelli  
(University of Padova)*

---

14:45 – 15:00

**Coffee Break**

---

15:00 – 15:45

**Empower Yourself – On the relationship between inner speech-related activities and attentional control**

*Miriam Gade, Alexander Soemer & Marko Paelecke (MSB Medical School Berlin)*

15:45 – 16:30

**What can imagined slips of the tongue tell us about inner speech?**

*Gary Oppenheim (Bangor University)*

---

**July 2**

9:00 – 16:30 CET

---

*08:45: Zoom Room open for chatting*

9:00 – 9:45

**How We Can Think in a Language**

*Christopher Gauker (University of Salzburg)*

9:45 – 10:30

**Inner speech and pure thought**

*Nikola Kompa (University of Osnabrück)*

---

10:30 – 10:45

**Coffee Break**

---

10:45 – 11:30

**Radical Pragmatism About Inner Speech**

*Benjamin Alderson-Day (Durham University)*

---

11:30 – 13:00

**Lunch Break**

---

13:00 – 13:45

**Can the children's brain prepare and execute inner and overt speech production?  
Simultaneous evidence from electroencephalography and functional near-infrared  
spectroscopy**

*Sonja Rossi & Franziska Stephan (Medical University Innsbruck)*

13:45 – 14:30

**From verbalizing to internalizing: Inner speech as a tool to aid cognition in  
development**

*Stefanie Höhl (University of Vienna)*

14:30 – 15:15

**The role of inner speech in early language development**

*Nivedita Mani (University of Göttingen)*

---

15:15 – 15:30

**Coffee Break**

---

15:30 – 16:30

**Panel discussion – What are the BOQs (Big Open Questions)?**

*Jutta Mueller, Benjamin Gagl (University of Vienna)*

---
